

Coloured MassBloc Range* - 2018

With an increased focus on aesthetics in the infrastructure industry, Rocla has responded with the introduction of a number of colours to the MassBloc 'Instant Wall' range.

MassBloc is now available in Charcoal, Sand, Coffee, Clay & Ocean colouring, as well as the standard uncoloured mix.

Contact Rocla on 131004 or at solutions@rocla.com.au for coloured MassBloc pricing and availability.

* Rocla MassBloc coloured units are only available at selected locations. Solid (non-permeable) mix MassBloc is not available in colour. Longer supply lead times may apply to coloured product. Minor colour variation per unit is to be expected.

Rocla strongly recommends that all MassBloc walls have a project-specific design prepared by a qualified engineer, with wall design in accordance with AS.4678. The Rocla MassBloc wall design software is available for free download from the MassBloc page on our website. Click the Rocla logo to be directed there.

Always refer to Rocla MassBloc standard T&C's in your quotation.
